### Company Overview: *Spinning Excellence with Sustainable Purpose*

**GIVENSEE SPINNING MILLS LTD. (GSML)** is a premier 100% export-oriented yarn manufacturing company based in Bangladesh, committed to delivering high-quality cotton yarns to the global textile industry. With a strong emphasis on innovation, sustainability, and operational excellence, GSML has established itself as a reliable partner for leading knitwear and garment manufacturers worldwide.

Strategically located in Gazipur—one of Bangladesh’s key industrial hubs—GSML operates a state-of-the-art production facility equipped with advanced spinning technologies sourced from Europe and Asia. Our cutting-edge infrastructure, combined with a highly skilled and dedicated workforce, enables us to maintain consistent product quality, optimize production efficiency, and meet the evolving demands of international markets.

At GSML, we are driven by a mission to uphold the highest standards of quality and sustainability, ensuring that every yarn we produce contributes to a more responsible and future-focused textile supply chain.

## Mission Statement

To produce world-class cotton yarns through cutting-edge technology, skilled craftsmanship, and ethical practices, while contributing to the socio-economic development of Bangladesh and promoting sustainable industrial growth.

## Vision Statement

To become a global benchmark in yarn manufacturing by offering superior quality, eco-friendly production, and innovation-driven growth that meets the evolving needs of the textile industry.

## Commitment to Sustainability & Environment

At **GIVENSEE SPINNING MILLS LTD.**, sustainability is a cornerstone of our operations. We are dedicated to minimizing our environmental footprint through:

- **Energy-efficient machinery** powered by gas generators and optimized REB and gas line usage.
- **Recycling practices** across production processes.
- Adoption of **eco-friendly raw materials** and waste-reducing production methods.
- Continuous training to ensure that our workforce is aligned with **green manufacturing protocols**.

We strongly believe that sustainable practices are not only beneficial to the planet but also ensure long-term profitability and responsibility to future generations.
